

Introduction

This presentation is divided into 2 aspects. Slides 2-5 is about the huge potential market waiting to be tapped. The projected population for 2008 came from a reputable government agency, National Statistics Office. As part of our commitment to support our stockists, distributors and leaders, the management plan to be aggressive in nationwide campaign. These includes actual radio interviews, press releases on major broad sheets and distribution of marketing materials.

Last 7 slides is the latest test, Anti-Bacterial Effect of Anion Strip conducted by well known testing center in China using Japan Anti-Bacterium Test Standard. The result of the test is favorable thus it safe to claim that Love Moon Sanitary Napkins prevents the proliferation of bacteria.

Feel free to use all information as one of your marketing tools in promoting our product and confidently merchandise that Love Moon Sanitary Napkin is a product of intensive research & development.
